

## Company profile 2014

Certified

# COMPANY PROFILE

From more than 25 years **Gallo Tech srl** is a specialized company in  
Mould designing and construction as well as injected thermo-  
plastic  
Items production.

It has production plants located in Italy and China.

During the years Gallo Tech s.r.l. becomes very competitive in  
Commercial sectors where quantities are quite reduced supplying a  
qualified technical supports to reduce final product costs.

Thanks to partnerships with industrial design studios and qualified  
technical drawers, Gallo Tech can assist Italian and Foreign  
customers in  
every step of the production process, from the item project, to the  
prototype execution, from the market test to the final mass  
production.

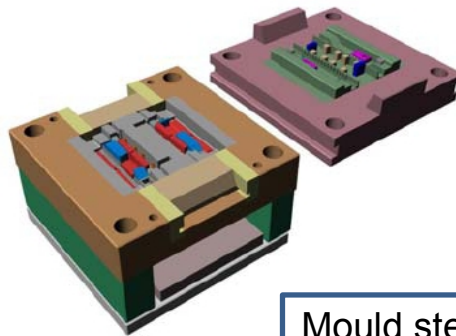

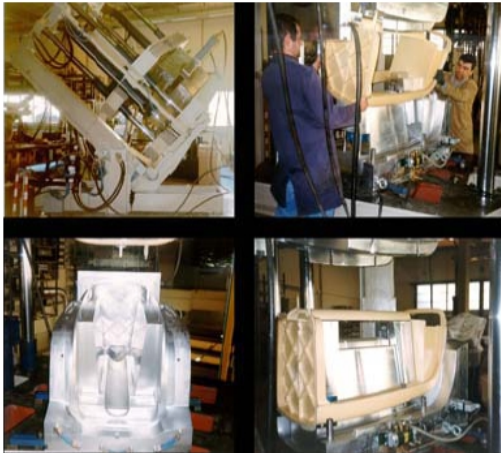

**Certified**

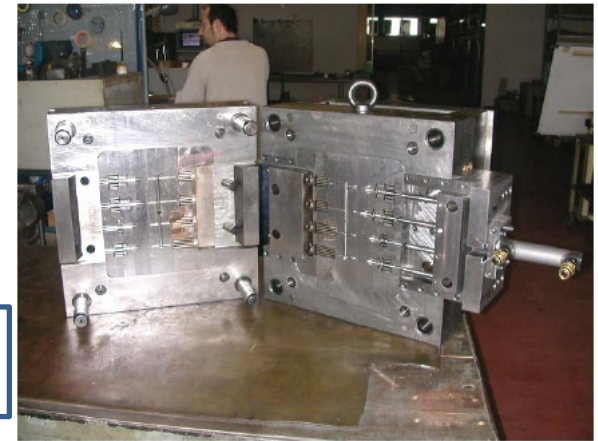

# MOULDS & TOOLINGS CONSTRUCTION

Our technical department is equipped by modern software ( CAD/CAM 2D/3D-Mold Flow cimatron.it – Filling analysis) able to read every standard file dxf, iges, dwg ecc... and by advanced equipments ( Spark-erosion CDM ROVELLA, AERRE CNC, grinding and leathing machines) to satisfy any particular customer

Mould steel  
hardened

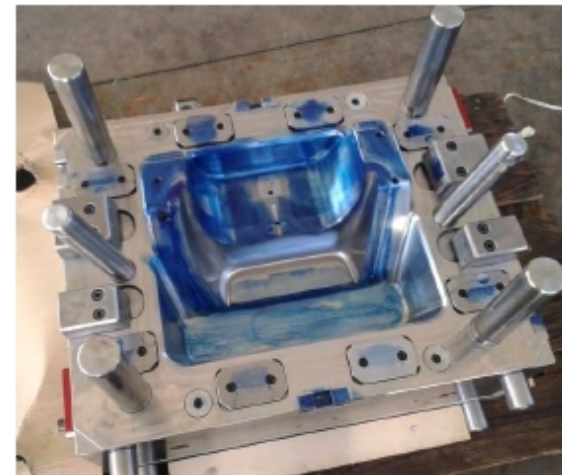

*Mould steel hardened "Grigia posteriore Miniminor"*

*Mould steel hardened "Mostrina mobiletto"*

*Mould steel hardened "Tapposervite"*

*Mould matrix "Mostrina mobiletto Fint 520" steel*

# THERMO-POLYMER

Our injection department is made up of 15 presses of different famous brands as:

ARBURG, RP, TOYO, FULL ELECTRIC. The range is quite different, we start From 60-ton power till 500-ton, and so we can inject plastic pieces till 1200-gr weigh.

The main parts of above press are equipped by automatic robots brand PIOVAN And DAL MASCHIO and these are provided of pre-drying or dehumidification.

A loaded plastic material system, GCE, completes a fully automatic production way.

# SERVICES

Product design and consulting

Injection moulds construction

Asian supplier research

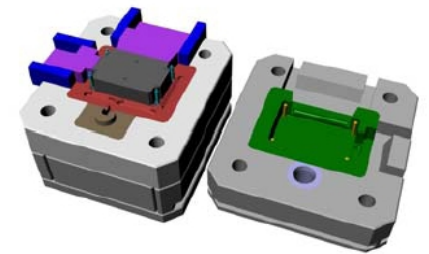

Plastic injection

Plastic hot stamping

Prototypes executed in metal or resin materials

Assembling

Quality Control

# SECTOR REFERENCES

Electronic terminal, aesthetics equipments, industrial machineries, vending etc...

Certified
